Why migrate to Azure with us?

Cloud computing has become a key part of the day to day business processes of many enterprises that have chosen to move towards digital transformation. This vector of movement is due to the availability and development of the power of cloud computing, the efficiency of using cloud platforms in various business models, as well as simple financial benefits.

Our mission is to provide you with everything you need to effectively realize the benefits of the Azure cloud platform within your enterprise.

4 elements to a successful shift to Azure:

What we offer:

- determination of optimal scenarios for using Azure in the client's infrastructure;
- development of infrastructure architecture;
- IaaS creation and configuration in Azure;
- migration of apps, local servers, databases, file repositories;
- creation of a reliable security perimeter for cloud infrastructure;
- technical support.

Use scenarios:

Building hybrid infrastructure solutions on Azure

Deploy or migrate business applications to Azure services

Building a secure infrastructure according to PCI-DSS standards

Azure Backup

Azure Site Recovery

Building a testlab for developing/testing applications and services

Why us?

INNOWARE IN SHORT
